# PLATFORMS

Transforming the Independent Automotive Aftermarket with Technology Innovation

Manage workflow | Increase efficiency- Support marketers and their suppliers with the appropriate tools to streamline their joint operations and workflows

Location Enabled Advertising Platform- Consumer centric product focusing on serving retailers and brands to connect with customers directly.

One-stop solution for end-to-end testing automation – Empowered by Machine learning and Deep learning algorithms

Smart Code Development- Simplifying App Building for everyone. If you have the idea you can make an app yourself

Beyond-ERP-Reporting- Deep strategic intelligence of business, provides actionable intelligence about competition and keeps updated about the industry trends

Smart Office Assistant – Transform digital workforce into a smart asset, eliminating redundant and non-productive tasks from daily working schedules.

# Thankyou.
