

DIFFERENZ SYSTEM PVT. LTD

Differenz System

About our company

At Differenz System we focus on providing a variety of web and app development solutions that have positively impacted our client's productivity and profitability. Our company is built on the foundation of three points: high performance, high productivity, and a healthy and energizing work environment.

Our team is composed of experienced professionals who specialize in providing comprehensive business solutions for web development, mobile app development, custom application development, and software development, all with a service-oriented mindset. Throughout the years we have prioritized providing innovative solutions to our customers with care and diligence. Today, it is safe to say we are one of the best custom application and web development companies out there!

About our mission

It is our personal mission to develop innovative and cost-effective web/mobile-based IT solutions for our clients and their stakeholders. We want to help you boost not only your productivity but profitability. Differenz System enables clients to work anywhere and anytime, with an ironclad guarantee to deliver solutions on time and with 24/7 support.

Testimonial

Differenz have been providing ongoing app and web development services to us for the last two years. They have great expertise and we have always found their work of the highest quality, even when handling extremely complex requirements. They also provide great customer service, with our account manager always on hand to talk through requirements and issues. Highly recommended!

 **Rupert Jenner**
Founder, Playwaze Ltd

Using the latest AWS serverless cloud technologies. The quality of their work has been outstanding and this has been absolutely critical to the successful launch of our product. We will continue to work with Differenz Solutions as our trusted partner into the future.

 **James Doherty**
Founder, Hubfleet

Differenz System has been the perfect technology partner for us. They bring a high standard of performance, keen technical resources, an unparalleled work ethic, and do it all seamlessly as an extension of my own IT department. From Business Intelligence architecture and support, Mobile app development and support, and Web design, development and support, Differenz system has consistently exceeded my, and my customers' expectations by providing quality solutions.

 **Michael Bunting**
Founder, Awakenedmind

The team at Differenz are hard-working, dedicated, and professional. We began working with them to develop 3 mobile apps for our company, and the results are exactly what we expected. Even as our needs and designs changed, the team accommodated every request, and was able to help fill in the gaps with their own expertise and creativity. We continued working with Differenz for our HTML5 needs as well, and are very pleased with the outcomes. Communication with their team is always prompt, professional, and thorough, even working late into the night. We highly recommend their services.

 **Eric Hess**
CEO, QuickSolvePlus

Brijesh was such a delight to work with, I am surprising him with this video testimonial as part of my feedback:

<https://www.youtube.com/watch?v=H1UeDkVp0>

Brijesh is honest, hardworking, and makes a fantastic product that you will be proud to share with others.

Ethan Borg
Founder, Qlumi

Differenz Solutions designed a cloud-based manufacturing scheduling system for us that dramatically improved control of our resources and productivity. Their attention to detail and ongoing support has been excellent. Highly recommend!

Laurie Mahoney
Manager, Sygnal Automation

The team have worked in a few projects for me: some from scratch and some fixing the work of other developers. They've always been responsive, professional and done a great job. I continue to use them for all of my website and app development tasks.

 **Naomi D Fabio**
Founder, Vera Flow

Differenz is truly a differentiated from the rest of the developer community. They do a great job of helping clients work through their architecture strategy, avoiding pitfalls and roadblocks as your business expands and grows. They are fast, courteous and meet their deadlines without fail. They will part of our growth strategy and implementation planning, I cannot recommend them highly enough.

 **Bill Carlin**
We Fix Freight

Differenz executed some major task for us on our enterprise resource planning project. Their work spanned over 4 years and reflected a high level of excellence and innovation. We highly recommend Differenz.

 **Dapo Aparo**
Owner, infinitisys.com

Differenz have provided London Sport excellent web development services across three products. We have been delighted with all areas of their work; expertise, technical knowledge and account management. We have asked Fazil and his team to take on the rebuild of an existing product, the ongoing development of another and build another from scratch - on all they have exceeded expectations.

 **Peter Meldrum**
Digital Product Manager

G4S Australia has had a business relationship with Differenz Systems for more than three years. During that time Differenz have developed and supported significant components of a critical and complex system utilised by our organisation on behalf of a State Government Department. These components that included a mobile hand-held device all had critical availability and performance objectives had very specific interfacing requirements that had to be met for the system to operate as expected. The system was implemented on time and has been operating for a number of years without any significant issues. We have found Differenz to be professional, reliable, and easy to deal with; importantly they have skills to deliver what we needed when we needed it.

 **Ian Gill**
G4S Australia

Why choose us

⇒ Premium One on One Consultancy
